

TriadicFrameworks — DOI Reference List

Submitted as part of NASA HPOSS Proposal Materials

This document provides a consolidated list of DOI-assigned publications, protocols, and artifacts associated with the TriadicFrameworks Research Initiative. These works establish the scientific foundation and open-science canon referenced throughout the HPOSS proposal.

Core Protocols and Framework Components

- Loswin, N. (2026). *Dimensional Substrate Regime Scanning Protocol (dsrsp/0.1)*. Zenodo. DOI: 10.5281/zenodo.18331997
 - Loswin, N. (2025–2026). *Resonance Substrate Model (RSM) — Structural Grammar Series*. Zenodo. Multiple DOIs.
 - Loswin, N. (2025–2026). *Validation-Space-Time Engine (vST) — Validation Framework Series*. Zenodo. Multiple DOIs.
 - Loswin, N. (2025–2026). *Structural Life-Regime Profiles (SLRP)*. Zenodo. DOI series.
-

Substrate Canon and Supporting Papers

- Loswin, N. (2025–2026). *TriadicFrameworks Canon — Foundational Papers 1–12*. Zenodo. DOI series.
 - Loswin, N. (2025). *Regime-Aware Modeling and Substrate Interpretation*. Zenodo. DOI series.
 - Loswin, N. (2025). *Dimensional Continuity and Regime Drift*. Zenodo. DOI series.
-

Documentation, Schemas, and Integration Guides

- Loswin, N. (2025–2026). *TriadicFrameworks Documentation and Developer Guides*. Zenodo. DOI series.
 - Loswin, N. (2025–2026). *Schemas, Examples, and Reference Implementations*. Zenodo. DOI series.
-

Notes

A complete, chronologically ordered DOI list is maintained on the TriadicFrameworks Zenodo profile and may be expanded as new components of the open-science canon are published.
